

Formatting

The Formatting Toolbar

To Format Selected Text: Change the style of text by clicking the **B** Bold button, **I** Italic button, or **U** Underline button on the Formatting toolbar.

Change the font type by selecting a font from the Times New Roman **Font list** on the Formatting toolbar.

Change the font size by selecting the pt. size from the 12 **Font Size list**.

To Copy Formatting with the Format Painter: Select the text with the formatting you want to copy. Click the **Format Painter** button on the Standard toolbar and drag the Format Painter pointer across the text where you want to apply the formatting.

To Change Paragraph Alignment: Select the paragraph(s) and click the appropriate alignment button (Align Left, Center, or Align Right) on the Formatting toolbar.

To Apply a Design Template: Click the **Slide Design** button on the Formatting toolbar and select the template you want to use.

To Edit the Slide Master (All Formatting Elements in a Presentation at Once): Select **View** → **Master** → **Slide Master** from the menu.

A **Color Scheme** is a set of eight coordinated colors you use as the main colors in your presentation.

To Change the Slide Color Scheme: Click the **Slide Design** button on the Formatting toolbar, click **Color Schemes** in the task pane, and select the color scheme you want to use.

To Change the Slide Background: Select **Format** → **Background** from the menu, select a color or fill effect from the drop-down color list, and click **Apply**.

To Format a Drawing Object: Select the object and select **Format** → **AutoShape** from the menu, or right-click the object you want to format and select **Format AutoShape** from the menu.

Views

Normal View includes panes for your presentation's outline, the current slide, and any notes for that slide. You will probably spend more time in Normal View than in any other view.

Slide Sorter View displays all the slides in your presentation as *thumbnails* (itty-bitty pictures). Use Slide Sorter View when you want to rearrange the slides in your presentation and add transition effects between them.

Slide Show View displays your presentation as an electronic slide show. Use Slide Show View when you want to deliver your presentation.

Outline and Slides Tabs

Outline Tab

This tab focuses on the content of your presentation instead of its appearance. Use this when you want to develop your presentation and add large amounts of text.

Slides Tab

This tab displays the slides in a presentation as thumbnails, making it easy to navigate through slides in your presentation. You can also rearrange, add, or delete slides here.

Delivery, Transitions and Animation

To Present a Slide Show: Click the **Slide Show View** button on the horizontal scroll bar.

To Doodle on the Current Slide with the Pen: In Slide Show View, press **<Ctrl> + <P>** and draw on the screen with the **Pen** tool. Press **<Ctrl> + <A>** to switch back to the arrow pointer. Press **<E>** to erase your doodles.

To Add Slide Transitions: Switch to **Slide Sorter View** and select the slide(s) where you want to add a transition. To select multiple slides, hold down the **<Shift>** key as you click each slide. Click the **Slide Transition** button on the Slide Sorter toolbar and select the transition effect you want to use from the task pane.

To Add an Animation Scheme: Select **Slide Show** → **Animation Schemes** from the menu and select the animation scheme you want from the task pane.

To Add/Rehearse Slide Timings (Create a Self-Running Presentation): Select **Slide Show** → **Rehearse Timings** from the menu. Display each slide for whatever duration you want, then advance to the next slide. PowerPoint will record how long each slide is presented.

While running a presentation, the **Slide Show toolbar** displays discreet buttons for highlighting text and accessing different parts of the slide show.

Drawing and Graphics

The Drawing Toolbar

To Insert a Clip Art Graphic: Select **Insert** → **Picture** → **Clip Art** from the menu, type a name in the **Search for** box or select a clip art category from the task pane, and click to select and insert the graphic.

To Insert a Picture: Select **Insert** → **Picture** → **From File** from the menu, select the file, and click **Insert**.

To Draw an Object: Click the object you want to draw on the Drawing toolbar and draw your shape by clicking on the document with the **+** pointer and dragging until the shape reaches the desired size. Hold down the **<Shift>** key while you drag to draw a perfectly proportioned shape.

To Add a Text Box: Click the **Text Box** button on the Drawing toolbar and click where you want to insert the text with the **I** insertion point.

To Move an Object: Click and drag the object using the mouse.

To Resize an Object: Click the object to select it and drag the object's sizing handles until the shape reaches the desired size. Hold down the **<Shift>** key while you drag to resize the object proportionally.
